Antibodies

**Anti-Tyrosine Hydroxylase Antibody, Clone TH-2**

Mouse monoclonal IgG1 antibody against human, rat, cow tyrosine hydroxylase, unconjugated

Catalog #60058 200 μL

**Product Description**

The TH-2 antibody clone recognizes an epitope present in the N-terminal region of both rodent (~60 kDa) and human (62 - 68 kDa) tyrosine hydroxylase (TH) which catalyzes the hydroxylation of L-tyrosine to L-3,4 dihydroxyphenylalanine (L-dopa) in brain and adrenal medulla and can therefore be used to detect dopaminergic neurons. L-dopa is required for the biosynthesis of catecholamines (dopamine, norepinephrine and epinephrine) which function as neurotransmitters and hormones.

**Target Antigen Name:** Tyrosine Hydroxylase  
**Alternative Names:** Tyrosine 3-monooxygenase, Tyrosine 3-hydroxylase  
**Gene ID:** 7054 (human), 25085 (rat)  
**Species Reactivity:** Human, Rat, Cow, Guinea pig, Monkey, Rabbit, Sheep  
**Host Species:** Mouse  
**Clonality:** Monoclonal  
**Clone:** TH-2  
**Isotype:** IgG1  
**Immunogen:** Rat tyrosine hydroxylase  
**Conjugate:** Unconjugated

**Applications**

Verified: ICC  
Reported: ELISA, ICC, IF, IHC, IP, WB

Abbreviations: CellSep: Cell separation; ChIP: Chromatin immunoprecipitation; FA: Functional assay; FC: Flow cytometry; ICC: Immunocytochemistry; IF: Immunofluorescence microscopy; IHC: Immunohistochemistry; IP: Immunoprecipitation; RIA: Radioimmunoassay; WB: Western blotting

**Properties**

**Formulation:** Mouse ascites fluid containing < 0.1% sodium azide  
**Purification:** The antibody was purified by column chromatography.  
**Stability and Storage:** Product stable at -20°C when stored undiluted. For product expiry date, please contact techsupport@stemcell.com.  
**Directions for Use:** For immunocytochemistry the suggested concentration of this antibody is 1:400 dilution. It is recommended that the antibody be titrated for optimal performance for each application. For instructions on how to use this antibody, refer to the Technical Manual: In Vitro Proliferation and Differentiation of Human Neural Stem and Progenitor Cells Using NeuroCult™ or NeuroCult™-XF (Document #28724) available on our website at www.stemcell.com.
