Product Description

NeuroCult™ Basal Medium (Mouse) is a standardized serum-free basal medium designed to be supplemented with NeuroCult™ Proliferation Supplement (Mouse; Catalog #05701) and appropriate cytokines for the in vitro culture and expansion of mouse neural stem and progenitor cells. NeuroCult™ Basal Medium (Mouse) can also be supplemented with NeuroCult™ Differentiation Supplement (Mouse; Catalog #05703) for the differentiation of mouse neural stem and progenitor cells into neurons, astrocytes and oligodendrocytes. NeuroCult™ Basal Medium (Mouse) is a component of the NeuroCult™ Proliferation Kit (Mouse; Catalog #05702) and the NeuroCult™ Differentiation Kit (Mouse; Catalog #05704).

NOTE: When preparing complete NeuroCult™ Proliferation Medium (Mouse), addition of rh EGF (Catalog #02633) is required. When culturing cells obtained from adult mouse, rh bFGF (Catalog #02634) and heparin (Catalog #07980) are also required.

Properties

Storage: Store at 2 - 8°C.
Shelf Life: Stable until expiry date (EXP) on label.

Handling / Directions For Use

NeuroCult™ Basal Medium (Mouse) must be used with supplements and cytokines suitable for the desired cell culture application: NeuroCult™ Proliferation Supplement (Mouse; Catalog #05701) and desired cytokines or NeuroCult™ Differentiation Supplement (Mouse; Catalog #05703).

NOTE: This product does not contain antibiotics. If desired, add penicillin and streptomycin and use medium within 1 week.

For instructions on culturing mouse neural stem and progenitor cells with NeuroCult™ Basal Medium (Mouse), please refer to the Technical Manual: In Vitro Proliferation and Differentiation of Mouse Neural Stem and Progenitor Cells using NeuroCult™ (Document #28704), available on our website at www.stemcell.com or contact us to request a copy.
