## Alpha MEM with Nucleosides Sci Minimum Essential Medium Eagle - alpha modification (Alpha MEM) Sci with nucleosides TOI Catalog # 36450 500 mL

Minimum Essential Medium Eagle - Alpha Modification (Alpha MEM) is recommended for a wide variety of cell culture applications. Selection of a suitable nutrient medium is dependent on the type of cell, culture conditions, and degree of chemical definition required for the cell culture application. MEM has typically been used for the culture of cells grown in monolayers; however, additional supplementation to Alpha MEM has expanded the applications for this medium.

MEM was developed by Harry Eagle when Basal Media Eagle (BME) was found not adequate to support the growth of HeLa cells. It was discovered that BME could support the growth of a wider variety of cells with the addition of certain medium supplements (e.g. higher concentrations of amino acids), which were incorporated into the MEM formulation. Alpha modification of MEM includes the addition of the non-essential amino acids, sodium pyruvate, lipoic acid, ascorbic acid, biotin, and vitamin B12.

See Formulation on page 2 for a full list of components.

## Properties

Storage:Store at 2 - 8°C.Shelf Life:Stable for 12 months from date of manufacture (MFG) on label.

## Handling / Directions For Use

This product contains the labile amino acid L-glutamine, which has a half-life of approximately 1 month when stored at 2 - 8°C. For certain cell culture applications, medium stored for greater than 2 months following date of manufacture should be supplemented with additional L-glutamine. Add 5 mL of 200 mM L-Glutamine (Catalog #07100) to 500 mL of Alpha MEM with Nucleosides to achieve a final concentration of 2 mM.

NOTE: This product does not contain antibiotics. If desired, add antibiotics and use within 1 week.

STEMCELL TECHNOLOGIES INC.'S QUALITY MANAGEMENT SYSTEM IS CERTIFIED TO ISO 13485. PRODUCTS ARE FOR RESEARCH USE ONLY AND NOT INTENDED FOR HUMAN OR ANIMAL DIAGNOSTIC OR THERAPEUTIC USES UNLESS OTHERWISE STATED.
