Product Description

Bay K8644, originally described as a modulator of potential operated calcium channels, exists as two enantiomers that have opposite actions (Hess et al.; Nowycky et al.; O'Neill et al.; Ravens et al.; Yamamoto et al.). (+)-Bay K8644 is an L-type channel blocker that has negative inotropic and vasodilatory effects (Artigas et al.; Franckowiak et al.; Ravens et al.).

Molecular Name:	(+)-Bay K8644
Alternative Names:	(+)-Bay-K 8644; (+)-Bay-R 4407; (R)-(+)-Bay K 8644; NI 105; R 4407
CAS Number:	98791-67-4
Chemical Formula:	C ₁₆ H ₁₅ F ₃ N ₂ O ₄
Molecular Weight:	356.3 g/mol
Purity:	≥ 98%
Chemical Name:	R-(+)-1,4-Dihydro-2,6-dimethyl-5-nitro-4-[2-(trifluoromethyl)phenyl]-3-pyridinecarboxylic acid methyl ester
Structure:	

Properties

Physical Appearance:	A crystalline solid
Storage:	Product stable at -20°C as supplied. Protect from prolonged exposure to light. For product expiry date, please contact techsupport@stemcell.com.
Solubility:	<ul style="list-style-type: none">· DMSO ≤ 140 mM· Absolute ethanol ≤ 140 mM For example, to prepare a 10 mM stock solution in DMSO, resuspend 1 mg in 281 µL of fresh DMSO.

Prepare stock solution fresh before use. Information regarding stability of small molecules in solution has rarely been reported, however, as a general guide we recommend storage in DMSO at -20°C. Aliquot into working volumes to avoid repeated freeze-thaw cycles. The effect of storage of stock solution on compound performance should be tested for each application.

Compound has low solubility in aqueous media. For use as a cell culture supplement, stock solution should be diluted into culture medium immediately before use. Avoid final DMSO concentration above 0.1% due to potential cell toxicity.

Published Applications

REPROGRAMMING

· When combined with BIX-01294, enables reprogramming of mouse embryonic fibroblasts after transduction with OCT4 and KLF4 only (Shi et al.).

DIFFERENTIATION

· Increases neuronal differentiation from neural stem and progenitor cells (NSCs) derived from the brains of postnatal mice (D'Ascenzo et al.).
