Antibodies

**Anti-Human HLA-DR Antibody, Clone LN3**

**Antibodies**

Mouse monoclonal IgG2b antibody against human, rhesus HLA-DR, unconjugated

Catalog #60164

100 μg 0.5 mg/mL

Product Description

The LN3 antibody reacts with the HLA-DR antigen, a major histocompatibility complex (MHC) class II antigen encoded within the human leukocyte antigen (HLA) complex on chromosome 6. HLA-DR is a heterodimeric transmembrane glycoprotein composed of one α (36 kDa) and one β (27 kDa) subunit. MHC class II plays a central role in the presentation of antigen-derived peptides to CD4+ T cells, along with CD3/TCR and CD4. HLA-DR is primarily expressed on the surface of antigen presenting cells, including B cells, dendritic cells, monocytes, macrophages, thymic epithelial cells, and activated T cells.

Applications

**Verified:** FC

**Reported:** IHC

**Special Applications:** This antibody clone has been verified for labeling dendritic cells generated from monocytes in culture using ImmunoCult™-ACF Dendritic Cell Culture Kit (Catalog #10985).

Abbreviations: CellSep: Cell separation; ChIP: Chromatin immunoprecipitation; FA: Functional assay; FC: Flow cytometry; ICC: Immunocytochemistry; IF: Immunofluorescence microscopy; IHC: Immunohistochemistry; IP: Immunoprecipitation; RIA: Radioimmunoassay; WB: Western blotting

Properties

**Formulation:** Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide

**Purification:** The antibody was purified by affinity chromatography.

**Stability and Storage:** Product stable at 2 - 8°C when stored undiluted. Do not freeze. For product expiry date, please contact techsupport@stemcell.com.

**Directions for Use:** For flow cytometry the suggested use of this antibody is ≤ 0.5 μg per 1 x 10^6 cells in 100 μL volume. It is recommended that the antibody be titrated for optimal performance for each application.
Flow cytometry analysis of human peripheral blood mononuclear cells (PBMCs) labeled with Anti-Human HLA-DR Antibody, Clone LN3, followed by an anti-mouse IgG2b antibody, PE (filled histogram), or Mouse IgG2b, kappa Isotype Control Antibody, Clone MPC-11 (Catalog #60072), followed by an anti-mouse IgG2b antibody, PE (solid line histogram).
