Product Description

Axygen® PCR Strip Caps are RNase/DNase-free, non-pyrogenic, non-sterile, and are ideal for polymerase chain reaction (PCR) and real-time PCR (qPCR). The cap design allows a tight seal, reduces sample evaporation, and is compatible with Axxygen® PCR Strip Tubes (Catalog #38094) and Axxygen® PCR Microplates (Catalog #38098). Axxygen® PCR Strip Caps are available in domed, flat, or flat/ultra-clear designs. The flat cap allows easy labeling of samples, the domed cap increases efficiency of heat transfer, and the flat/ultra-clear cap allows for 75% higher light transmittance.
